RADICAL ECOLOGICAL CONVERSION AFTER LAUDATO SI'

Discovering the intrinsic Value of all Creatures, Human & Non-human

Sponsored by the Embassies of Georgia, Germany and the Netherlands to the Holy See in collaboration with the Pontifical Gregorian University, and the Joint Diploma in Integral Ecology Group of the Pontifical Universities, a conference on Radical Ecological Conversion After Laudato Si', Discovering the intrinsic Value of all Creatures, Human and Non-human will take place at the Pontifical Gregorian University in Rome, *Piazza della Pilotta 4, 00187*, on March 7–8 2018.

The conference will bring together priests, religious, scientists and teachers to explore the implications for the Academy, the Church, and Society of the teaching of Laudato si' on the intrinsic worth of all creatures, and the need to re-order human society so as to respect them, and the natural order of the Creation.

Through scholarly presentations and dialogue, the conference will identify ways the Church may, together with other partners, bring about the radical ecological conversion of individuals and of economic, social and political agencies and communities.

For those who wish to attend the conference please, register at georgiaholyysee@gmail.com indicating your name and affiliation.

Organising committee takes responsibility for your attendance, provides printed programs and coffee during Coffee Breaks; we are unable to provide further services.

Registration is open instantly and will close on 26 February 2018.

Radical Ecological Conversion After *Laudato Si'*
Discovering the Intrinsic Value of all Creatures
Pontifical Gregorian University (Piazza della Pilotta 4, 00187, Rome)
7-8 March 2018
